percent if called; volume; open interest; stock price; in the money; and out of the money.

83.   (Newly Added) The method of claim 82, wherein the step of identifying a set of financial instruments comprises the step of compiling a list of stock options, wherein the list identifies for each stock option at least one of the following: stock name; stock symbol; option symbol; strike month; strike price; bid; volume; open interest; percent if not called; and percent if called.

84.   (Newly Added) The method of claim 47 wherein the step of receiving user-defined search criteria comprises the step of accepting user-defined search criteria for at least one of the following searchable parameters: spread between called and not called; percent if not called; percent if called; volume; open interest; stock price; in the money; and out of the money.

85.   (Newly Added) The method of claim 84, wherein the step of returning a representation of the identity of the identified set of financial instruments comprises the step of returning a list of stock options, wherein the list identifies for each stock

option at least one of the following: stock name; stock symbol;
option symbol; strike month; strike price; bid; volume; open
interest; percent if not called; and percent if called.

86.   (Newly Added) The method of claim 59 wherein the step
of receiving user-defined search criteria comprises the step of
accepting user-defined search criteria for at least one of the
following searchable parameters: spread between called and not
called; percent if not called; percent if called; volume; open
interest; stock price; in the money; and out of the money.

87.   (Newly Added) The method of claim 86, wherein the step
of returning a representation of the identity of the identified
set of financial instruments comprises the step of returning a
list of stock options, wherein the list identifies for each stock
option at least one of the following: stock name; stock symbol;
option symbol; strike month; strike price; bid; volume; open
interest; percent if not called; and percent if called.

88.   (Newly Added) The method of claim 66 wherein the step
of accepting user-defined search criteria for said searchable
parameters comprises the step of accepting user-defined search

- 3 -

criteria for at least one of the following searchable parameters: spread between called and not called; percent if not called; percent if called; volume; open interest; stock price; in the money; and out of the money.

89.   (Newly Added) The method of claim 88, wherein the step of presenting to a user the set of financial instruments comprises the step of presenting a list of stock options, wherein the list identifies for each stock option at least one of the following: stock name; stock symbol; option symbol; strike month; strike price; bid; volume; open interest; percent if not called; and percent if called.   --

REMARKS

A speedy and favorable first office action is respectfully solicited.
